# Hazardous Weather

# Hazardous Weather

Strong to severe thunderstorms are expected to form this afternoon over northwest Oklahoma, then spread slowly southeast through the evening. Large hail, damaging winds, frequent lightning, and areas of flooding will be the main threats from these storms.

There will be a LOW risk for showers and thunderstorms across North TX this afternoon. Not all locales will experience rain/storms. A few storms could be strong to possibly severe. Main threats will be lightning, strong winds, some hail and heavy rain. If heavy rainfall occurs along the Red River, there will be a heightened risk of Flash Flooding. For Monday Evening/Monday Night, another complex of storms is forecast to dive southeastward towards North TX. Similar to the previous nights, heavy rain, lightning, hail and strong winds will be the main hazards.

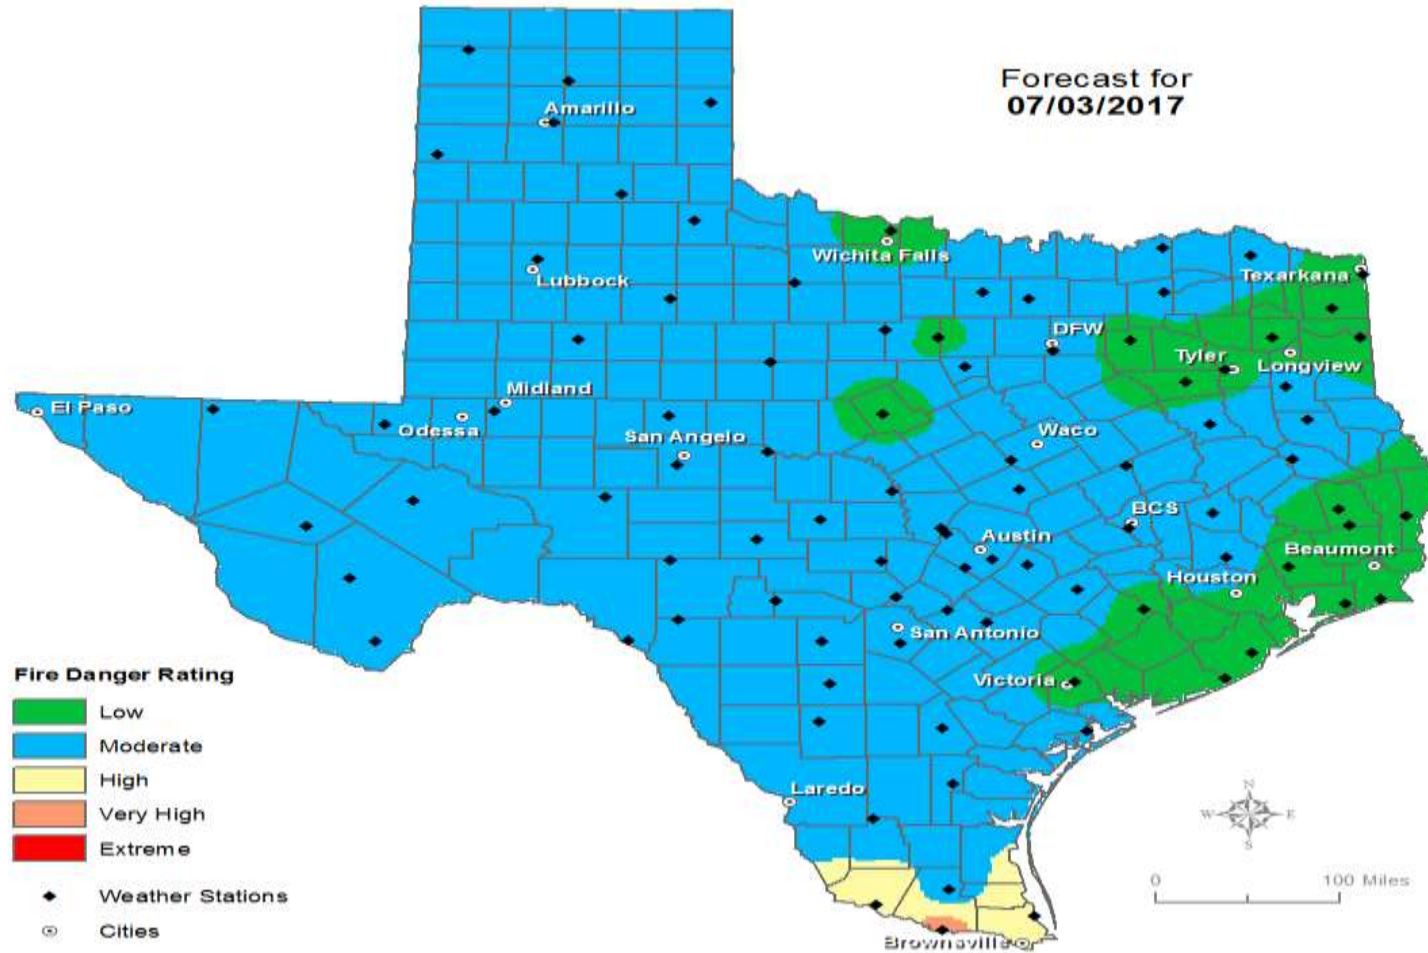

# Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
07/02/17	Severe Thunderstorm Warning	Dallam, Grayson, Hartley, and Montague Counties
